

MANUAL & INFORMATION

SYNTH-WEAR

KLANG

SYNTHESE

RHYTHMUS

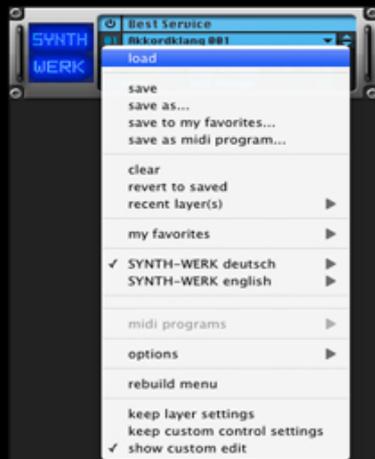

DEUTSCH
ENGLISH

1. Klänge Laden:

Deutsche und englische Klang-Presets sind identisch.

"SYNTH-WERK deutsch" Klänge = blaue deutsche Bedienoberfläche.

"SYNTH-WERK english" Klänge = grüne englische Bedienoberfläche.

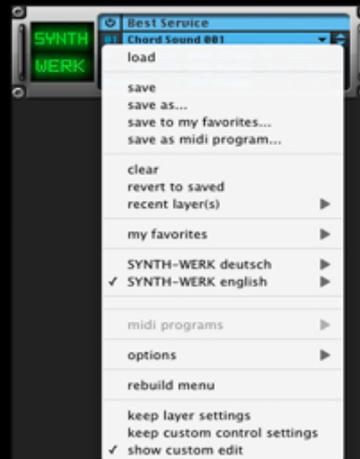

1. Loading sounds:

German and english sound-presets are identical.

"SYNTH-WERK deutsch" sounds = blue german interFace.

"SYNTH-WERK english" sounds = green english interFace.

2. Portamento

Portamento

- Portamento an/aus
- Portamento/Glide Zeit

* weitere Portamento/
Glide Parameter >

Pro Edit

2. Portamento

Portamento

- Portamento on/off
- Portamento/Glide Time

* more Portamento/
Glide Parameter >

Pro Edit

3. Sample Start

Sample Start Manipulation
per Zeit oder
per Anschlagsdynamik

* weitere Parameter

Pro Edit > modifiers

Fix value > Skip
velocity > Skip

3. Sample Start

Sample Start Manipulation
by time or
by velocity

* more parameters

Pro Edit > modifiers

Fix value > Skip
velocity > Skip

4. Zufall Analog-Synth Simulation

Zufall 2 x

Start Tonhöhe

- Zufall an/aus
- 2 x doppelt alle Samples des gesamten Instruments, ähnlich "unisono" Funktion oder 2. Oszillator
- Start Regler manipuliert den Sample-Startpunkt per Zufallsgenerator
- Tonhöhe Regler manipuliert die Tonhöhe per Zufallsgenerator

weitere Editierungs-Parameter > [Pro Edit](#)

4. Random Analog-Synth simulation

Random 2 x

Start Pitch

- Random on/off
- 2 x doubles all samples of the instrument, similar "unisono" function or second waveform oscillator
- Start slider manipulates the sample start by a random generator
- Pitch slider manipulates the pitch by a random generator

more edit-parameters > [Pro Edit](#)

5. LFO > Lautstärke

LFO > Lautstärke

Sinus 7 114

Lautstärke

- Manipulation der Lautstärke per LFO (Pro Edit LFO # 2)
- Presetwahl
- Intensität +- 12 db

5. LFO > Volume

LFO > Volume

Sinus 7 114

Volume

- Volume manipulation by LFO (Pro Edit LFO # 2)
- LFO - Presets
- Intensity +- 12 db

6. Step Modulator > Multi Mode Filter

StepModulat->MMFilter

No Loop 04

X-fade

[Pro Edit](#)

- Manipulation des Multi Mode Filters per Step Modulator
- Presetwahl
- Überblendungs-Intensität (H-Fade)

> STEP MOD # 1

6. Step Modulator > Multi Mode Filter

StepModulat->MMFilter

Rhythmic 04

X-fade

[Pro Edit](#)

- Manipulation of Multi Mode Filter by Step Modulator
- Presets
- Crossfade intensity (H-fade)

> STEP MOD # 1

7. Multi Mode Filter

Multi Mode Filter 24 db Dynamik FolgeFit ADSR Filter

Freq. Reso. LP BP HP A D S R

7. Multi Mode Filter

Multi Mode Filter 24 db Velocity Follower ADSR Filter

Freq. Reso. LP BP HP A D S R

- Multi Mode Filter (MMF) on / aus
- Cutoff Frequenz Regler
- Resonanz Regler
- Low- / Band- / Highpass Regler
- ADSR Hüllkurve (Pro Edit AHDSR #1)
- 12/24/36 db Auswahl
- ADSR on / aus

Wichtig ! :

- Dynamik an/aus manipuliert NICHT die Cutoff Frequenz des MMF, sondern ist unabhängig vom MMF, stattdessen wirkt die Anschlagsdynamik auf den Cutoff des "Filter" der Pro-Edit Page !
- Folgefilter an / aus (aktiviert den "Filter Follower" auf Pro Edit)

- Multi Mode Filter (MMF) on / off
- Cutoff Frequency Slider
- Resonance Slider
- Low- / Band- / Highpass Slider
- ADSR Envelope (Pro Edit AHDSR #1)
- 12/24/36 db selection
- ADSR on / off

Important ! :

- Velocity on/off does NOT manipulate the cutoff frequency of the MMF, it's independent from the MMF, instead of the velocity interacts the cutoff-freq of the "filter" in the Pro-Edit Page !
- Follower on / off (activates Pro Edit FH "Filter Follower")

8. Klang

- HP Regler einfacher Hochpass Filter
- Glanz Regler intensive Höhen Klangregelung

8. Tone

- HP Slider simple high-pass filter
- Brilliance slider intensive Treble sound control

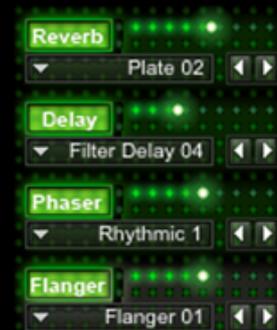

9. Effekte

- Hall an/aus -Intensität -Presets
- Echo an/aus -Intensität -Presets
- Phaser an/aus -Intensität -Presets
- Flanger/Chorus an/aus -Intensität -Presets

Pro Edit > 40 weitere Effekte

9. Effects

- Reverb on/off -Intensität -Presets
- Delay on/off -Intensität -Presets
- Phaser on/off -Intensität -Presets
- Flanger/Chorus on/off -Intensität -Presets

Pro Edit > 40 additional Effects

10. Bit Reduktion

- Bit Reduktion
24 bit - 2bit
- Frequenzbereich
4-100 ha - 100 ha
- weitere Parameter

> **Pro Edit**

insert FH

10. Bit Reduction

- Bit Reduction
24 bit - 2bit
- Frequency Range
4-100 ha - 100 ha
- more parameters

> **Pro Edit**

insert FH

11. Limiter

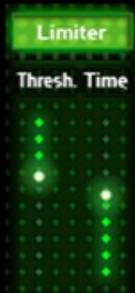

- Schwelle Regler
Threshold
- Zeit
Release Time
- weitere Parameter

> **Pro Edit**

insert FH

11. Limiter

- Threshold
Slider
- Release time
Slider
- weitere Parameter

> **Pro Edit**

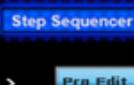

insert FH

12. Arpeggiator

- Arpeggiator/
MidiFile Player an/aus
- modifier / FH active

13. Step Sequencer

- Step Sequencer an/aus

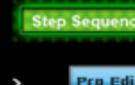

12. Arpeggiator

- Arpeggiator/
MidiFile Player on/off
- modifier / FH active

13. Step Sequencer

- Step Sequencer on/off

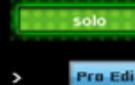

14. solo

- solo an/aus
32 > 1 voice monophon

14. solo

- solo on/off
32 > 1 voice monophon

15. legato

- Legato an / aus

15. legato

- Legato on / off

16. Tonhöhe

Tonhöhe - Tonhöhe
+- 24.00 Halbtöne

16. Pitch

Pitch - Pitch
+- 24.00 semitones

17. Dynamik Umfang

Dynamik Umfang - Dynamik Umfang
0 bis -60 db

17. Dynamic Range

Dynamic Range - Dynamic Range
0 to -60 db

18. Panorama

Panorama - Panorama
-100% +100%

18. Panorama

Panorama - Panorama
-100% +100%

19. mono / stereo

m stereo st - mono - stereo
0 % - 100 %

m / st nach FX - m/st nach FX

aus = mono - stereo regelt nur das Stereo - Verhalten der Samples.

an = mono - stereo regelt das Stereo - Verhalten der Samples inkl. zusätzlich aktivierter Effekte.

19. mono / stereo

m stereo st - mono - stereo
0 % - 100 %

m / st post FX - m/st post FX

off = mono - stereo controls only the stereo - performance of the samples.

on = mono - stereo controls the stereo - performance of samples including all additional effects.

20. AHDSR Hüllkurve

A H D S R - Lautstärke
AHDSR Hüllkurve

> **Pre Edit**

20. AHDSR Hüllkurve

A H D S R - Volume
AHDSR Envelope

> **Pre Edit**

21. Lautstärke
