

RECORDING

The magazine for the recording musician

"Finally, a company that makes a synthesizer that offers a new synthesis technique. HCM is not just some meaningless "buzzword" that's a rehash of more of the same... It gives a new direction in dynamic expression."

KEYS

"nearly boundless possibilities... opulent sound processing... new, very specific sounds, which no other synthesizer plugin can do..."

"The developers succeeded to pack a huge variety of features to a very well arranged and easy to use interface. Gladiator sounds powerful and impressive... very good sounds are included."

computer music

"This is a seriously fine-sounding instrument and hardcore synthesists in particular will love the innovative approach to sound generation"
