### Galaxy Vintage D **£115**

#### **pros**

- A very fine-sounding Steinway piano, superbly sampled *au naturel*.
- Very playable and stylistically versatile.
- Contains pad sounds.
- A good effects menu includes some radical options.

#### **cons**

- Will produce deep feelings of resentment in keyboard players who wished they owned the real thing.

#### **summary**

Galaxy Vintage D is, in a nutshell, a classic Steinway piano favoured by leading players, recorded with great equipment in a top studio by an experienced and technically skilled production team. It requires no maintenance or tuning, weighs next to nothing, takes up no room space and with a little care will last a lifetime — not a bad deal for an instrument which costs less than £120!
