

Randy Black - Pearl Masters Premium Legend (M.P.L.)

You're looking for *machine-gun-like* double bass salvos, *transient-rich* tom hits and a snare that cuts through any *thrash metal* production? Then you've come to the right session.

Klangmacht – a Ugritone series

Klangmacht – German for “The power of sound” – is a series of the Finnish-German brand Ugritone, delivering top-tier VSTs with outstanding sound quality. True to our name, we create larger-than-life instruments. We capture the momentum of spirit, sound and craftsmanship with striking precision and a good scoop of dirt so that you can unleash it in your own creative outburst.

- **Spirit: Randy Black** - Drummer of Destruction and also known for his work with Bif Naked, Annihilator, and Primal Fear, set up his signature drum kit and played all samples in different velocities and articulations. Few drummers have internalized thrash metal as much as Randy - his performance is like a concert of its own that leaves every headbanger with a thick head.
- **Sound: Pearl Masters Premium Legend** - This drum set is not an instrument, but a fortress. Equipped with 8 toms and countless cymbals, it is by far the largest drum set in the Klangmacht line. If you like extraordinary sounds alongside pounding metal drums, you've come to the right place. And when all else fails, it's time for the 28" kick drum.
- **Craftmanship: Charlie Bauerfeind** - All Klangmacht Drum Plugins are masterfully shaped by legendary producer Charlie Bauerfeind. Charlie is a powerhouse in metal production, renowned for his impeccable ear and dynamic approach. Each microphone was carefully pre-routed to stems, premixed, and preprocessed by Charlie, ensuring that every hit, crash, and thump you trigger is full

of character and production-ready, sent with love right into your studio, waiting to be shaped into your next masterpiece.

,

What you get:

- 28" Kick Drum.
- 2x 22" Kick Drums.
- 8 Toms, including a 20" Gong Tom.
- Free Floating Brass Snare.
- Enormous Sabian AA/AAX/HHX/APX Series Cymbal Set.
- Both: Digital & Analog Samples (Paul Wolff FIX Console & MTR 90 Otari 2" Tape Machine).
- Special articulations for an organic playing impression at the highest level.

Focus on the essentials!

- Thanks to the **intuitive concept** and powerful **sound shaping capabilities**, you can turn the drums from intimate in-your-face banging to epic stadium size.
- To embed your drums in your mix as effortlessly as possible, Klangmacht offers you a range of special sound shaping options that require **no prior engineering knowledge**. On the contrary: Follow your intuition and taste - the technical side is taken care of.
- The pre-produced, stem-based samples are not limited to direct signals or reverb and rooms, as is often the case with conventional plug-ins. Klangmacht offers you a range of additional sound components with which you can **color your drums**. Be it with the Bleed Control, to add some crunch to the Drums and place them more directly in the mix. Or with the advantage of running shells and cymbals as separate overhead signals. Creating the perfect drum sound has never been easier.

Stop fixing. Make music.

Specs:

Randy Black – Pearl M.P.L. by Klangmacht / Ugritone is a Virtual Instrument Audio Plugin and a Software Application and Soundware (samples or presets that load into other products) for macOS and Windows. It includes, and is therefore "powered by", Kontakt Player, which functions as an Audio Units Plugin, a VST 3 Plugin, an AAX Plugin and a Standalone Application.
