**Ueberschall announces the availability of Nightshift**

### **Nightshift**

Natural chillout music

Ueberschall presents deep, smooth & laid-back construction kits for relaxing moods. The 18 construction kits deliver a perfectly designed amount of sounds and are professionally produced, composed and arranged. With a range of 059 bpm to 091 bpm any producer will be ready to create unique smooth tunes, lounge projects, radio & tv commercials, film cues and web applications of high quality. Integrate the library into your project to give the whole production a totally new style and touch of sound - no matter what genre.

#### **Content**

A close look into the 2.9 GB package, finds more than 950 loops and samples of supremely engineered and recorded instruments. High quality sounds, chilled acoustic and electric guitars, varied and inspiring drum arrangements plus the right fx sounds for the calm moments in music. BPM information and root key (key signatures) are also embedded in all loop file names.

#### **Structure**

Each complete kit contains up to 2 sub-kits, some also contain variations. The material is organized as follows:

- Main Kit - Includes the main theme, with its sounds and phrases.
- Intro/Outro Kit - Here you can find the matching intro/outro track for the overall kit, along with its individual parts.

The given structure and features like labeled key signature and tempo information provide a very easy way of arranging a whole song including all the parts you need to make the perfect unique track. Additionally the Elastik Player offers you a lot of DSP functions to adjust the phrases to further fit your productions / creations.

#### **Credits**

Marc Steinmeier worked for Companies like Universal Music, EMI Electrola and Sony/BMG to name a few. He has assisted, produced or remixed for well known artists such as LL Cool J, Alica Keys, George Clinton, Eminem to name a few. He gave a lot of productions their break in terms of Sound design.

Genre: Chillout
